## **Abstract**

This token is perfect!! There is no upgrades, no modifications, no softforks or hardforks, or any development at all. It is perfect just as it is.

## **1 Introduction**

The world needs something perfect. But not anymore.

## **2 Technical details**

Perfection has no technical details. Technology always had and always will have problems. So by definition, Born Perfect, solved that issue not having technical details at all.

## **3 Mission and Goals**

None! It already achieved them all.

## **4 Conclusion**
